

## **PAMV Chapter BHS Music & Performance Report for January 9, 2016 Board Meeting**

**Repertoire.** After the holiday break, we're working on "Our Town" and "When You Wore a Tulip". We've received sheet music for several additional songs, but haven't tried singing them yet. We expect learning recordings soon.

**Song-learning expectations.** Members have taken individual responsibility for learning rather than expecting someone else to push a new song into their brains. A number of people worked on "Our Town" over the holidays, and the work was evident on 1/7.

**Vocal Skills.** Singing in the model is becoming more automatic, so when someone forgets to sing appropriately, a gentle reminder rather than involved instruction is sufficient to improve his singing..

**Individual singing improvement.** Paul Eastman will review the forms listing, for each individual, what he'd like to improve. Paul will then put together a program to address those needs in the coming weeks.

- Terry Moore, VP of Music and Performance
