

## **PAMV Chapter BHS Music & Performance Report for July 9, 2016 Board Meeting**

**Skill-Building.** We continue to build our singing skills, although we still need to be reminded to sing with appropriate timbre, breathing, and posture. Learning new songs has become more routine.

**Repertoire.** All songs for the fall Cabaret show have been distributed, although we haven't yet worked on all of them together as a chorus.

**Vocal Clinic and Final Show/Party.** The women again demonstrated that it's possible to be more expressive with our faces and bodies; in fact, their Director explicitly challenged us to do so. If we can be as alive as they were, we'll please our audiences, have more fun, and score higher in evaluations. In the preceding weeks of instruction and socializing, we communicated to all our excitement in singing and met several attendees who would make good PAMV members.

**Chorus Workshop.** We'll polish our skills and prepare for the fall convention on August 6.

**Future music selection.** The Music Team will be meeting later in the summer to discuss repertoire for future shows and competitions.

- Terry Moore, VP of Music and Performance
